Company. Accordingly, in consonance with the scheme of the provisions of the Companies Act, 2013 (Act) and more particularly provisions of Section 231, an appropriate direction may be issued by this Hon'ble Tribunal to the effect that upon passing an order under section 230 of the Companies Act, 2013 (Act) sanctioning the present scheme, the authorized share capital of the Petitioner / Transferor Company No. 2 shall stand transferred and vested in the Petitioner / Transferee Company.

That the Petitioner / Transferee Company shall, subject to the aforesaid order being passed by the Hon'ble Tribunal, undertake to comply with the provisions of Section 232 (3) (i) of the Act in regard to any further additional fees, if any payable on its revised authorized share capital of Rs. 1,34,00,00,000/-."

11. In view of the observation of Regional Director and affidavit of the transferee company it is clarified that pursuant to the sanctioning the Scheme, the authorized share capital of the Petitioner / Transferor Company No. 2 shall stand transferred and

vested into the Petitioner / Transferee Company. In addition, it is directed that the transferee company shall comply with the provisions of Section 232 (3) (i) of the Companies Act, 2013, in regard to any further additional fees payable on its revised authorized share capital of Rs. 1,34,00,00,000/-. Accordingly, the sole observation of the Regional Director is taken care of.

12. The Department of Income Tax has also filed its report on 15.04.2019 raising a limited observation that re-assessment proceedings with respect to the Petitioner / Transferor Company 2 for Assessment Year 2013-14 and 2014-15 are pending. However, it is submitted in the report that there is no outstanding pending demand against the petitioner companies.

13. In respect of aforesaid observation of the Income Tax Department, the transferee company filed an affidavit on 23.04.2019 and undertook as follows:

"5. we state that assessment proceedings with respect to the Assessment Year 2013-14 and 2014-15 pending before the Income Tax Appellate Tribunal in ITA Nos. 6453 & 6454/Del/2018 have been allowed in favour of Petitioner / Transferor Company No. 2 by Order dated 15th March, 2019 of the Income Tax Appellate Tribunal, New Delhi. A copy of the order

dated 15th March 2019 is annexed hereto and marked as ANNEXURE – A. It is further stated that as on date, as the appeals have been decided in favour of the Petitioner / Transferor Company No. 2 vide aforesaid Order dated 15th March, 2019, no notice of demand has been received by the Petitioner / Transferor Company No. 2 from the Income Tax Department. We further state that as on the date of affirming the present Affidavit, no notice of appeal has been received by the Petitioner/Transferor Company 2 against the aforesaid order 15th March 2019 of the ITAT.

6. It is stated that the Petitioner / Transferee Company undertakes, that upon the Scheme becoming effective, it shall, subject to final order(s) being passed in appellate proceedings if any, pay the tax liability that may arise from a demand by the Income Tax Department with respect to the Assessment Years 2013-14 and 2014-15.

7. It is further stated that the Petitioner / Transferee Company undertakes, that upon the Scheme becoming effective, it shall subject to final order(s) being passed in appellate proceedings if any,

pay the income tax liability if any of the Petitioner / Transferor Company 2 for Assessment Years other than the Assessment Years 2013-14 and 2014-15 arising from a demand by the Income Tax Department.”

14. In the light of the aforementioned undertaking filed by the transferee company it is clarified that the transferee company shall be bound by its undertaking given on affidavit as above. It is further clarified that there shall be no limitation on the power of the Income tax Department for recovery of pending Income Tax dues, including imposition of penalties etc. from all the petitioner companies as provided in law.
15. The Official Liquidator has filed its report on 12.12.2018 wherein no material objection has been raised by them in relation to the Scheme. It is submitted in the report that the official liquidator has not received any complaint against the proposed Scheme from any person/party interested in the Scheme in any manner and that the affairs of the transferor companies do not appear to have been conducted in a manner prejudicial to the interest of its members or to public interest.

16. In the joint petition it has also been affirmed that no proceeding for inspection, inquiry or investigation under the provisions of the Companies Act, 2013 or under provisions of Companies Act, 1956 is pending against the Petitioner Companies.
17. Certificates of respective Statutory auditors of all the petitioner companies have been placed on record to the effect that Accounting Treatment proposed in the Scheme of Amalgamation is in conformity with the Accounting Standard notified by the Central Government as specified under the provisions of Section 133 of the Companies Act, 2013.
18. The shareholders of the applicant companies are the best Judges of their interest, fully conversant with market trends, and therefore, their decision should not be interfered with by the Tribunal for the reason that it is not a part of judicial function to examine entrepreneurial activities and their commercial decisions. It is well settled that the Tribunal evaluating the Scheme of which sanction is sought under Section 230-232 of the Companies Act of 2013 will not ordinarily interfere with the corporate decisions of companies approved by shareholders and creditors.

19. In the case of Hindustan Lever Employees Union Vs. Hindustan Lever Limited (1995) 5 SCC 491 the three Judges Bench of Hon'ble Supreme Court held that:

“ A company court does not exercise appellate jurisdiction over a scheme and its jurisdiction is limited to ascertaining fairness, justness and reasonableness of the Scheme and to ensure that neither any law has been violated or public interest compromised in the process.”

20. Right to apply for the sanction of the Scheme has been statutorily provided under Section 230-234 of the Companies Act, 2013 and therefore, it is open to the applicant companies to avail the benefits extended by statutory provisions and the Rules.

21. It has also been affirmed in the petition that Scheme is in the interest of Transferor company and the transferee company including their shareholders, creditors, employees and all concerned.

22. In view of the foregoing, upon considering the approval accorded by the members and creditors of the Petitioner companies to the proposed Scheme, and the report filed by the Regional Director, Northern Region, Ministry of Corporate

Affairs, official liquidator and the report filed by Income Tax Department, there appears to be no impediment in sanctioning the present Scheme.

23. Consequently, sanction is hereby granted to the Scheme under Section 230 to 232 of the Companies Act, 2013.

24. The Petitioners shall however remain bound to comply with the statutory requirements in accordance with law.

25. Notwithstanding the above, if there is any deficiency found or, violation committed qua any enactment, statutory rule or regulation, the sanction granted by this court to the scheme will not come in the way of action being taken, albeit, in accordance with law, against the concerned persons, directors and officials of the petitioners.

26. While approving the Scheme as above, we further clarify that this order should not be construed as an order in any way granting exemption from payment of stamp duty, taxes or any other charges, if any, and payment in accordance with law or in respect to any permission/compliance with any other requirement which may be specifically required under any law.

27.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these extracted standalone Ind AS financial statements that give a true and fair view of the state of affairs (financial position), profits (financial performance including other comprehensive income) and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the extracted Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these extracted standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit of the extracted standalone Ind AS financial statements in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the extracted standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the extracted standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the extracted standalone Ind AS financial statements. We believe that the

audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the extracted standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the extracted standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at January 01, 2017, its profits including other comprehensive income, and the changes in equity for the nine months period ended on that date.

Basis of preparation

Without modifying our opinion, we draw your attention to Note 1(a)(i) of the extracted financial statements, which describes the basis of preparation. These extracted Ind AS financial statements have been prepared to merge the Newspaper Publishing Business of Mail Today Newspapers Private Limited with T.V. Today Network Limited, pursuant to Scheme of Amalgamation and Arrangement approved by Board of Directors of the Company on December 15, 2017, to be filed with National Company Law Tribunal. As a result, these extracted financial statements may not be suitable for any other purpose. Our report is solely for the purpose mentioned above and may not be distributed or used for any other purpose. Accordingly, the cash flow statement, previous period comparatives and other disclosures mandated under preparation of financial statements under IND AS have not been prepared while drawing out these special purpose extracted interim financial statements of the Company.

Emphasis of Matter

We draw attention to Note 1 (iii) of the extracted financial statements which indicates that the Company has recognised deferred tax assets aggregating to INR 1,037,366,903 on its accumulated business losses, unabsorbed depreciation and other timing differences outstanding as at January 01, 2017. The realisation of such deferred tax assets is dependent on the approval of the Scheme of Arrangement proposed between the Company and T.V. Today Network Limited ("the acquirer company") enabling the acquirer company to realise the deferred tax assets with reasonable certainty. These facts, narrated in Note 1(iii) to establish that such deferred tax assets will be adjusted with future taxable income of the acquirer company, have been considered to recognise the deferred tax assets as at the date of these special purpose financial statements prepared for filing of scheme of arrangement split between "Newspaper Publishing Business" and "Events Business".

Our opinion is not qualified in respect of above stated matter.

Report on Other Legal and Regulatory Requirements

1. As required by section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

Mail Today Newspapers Private Limited

Notes forming part of the extracted financial statements of newspaper publishing business for the nine months period ended January 01, 2017

Background

Mail Today Newspapers Private Limited ('the Company') was incorporated on May 9, 2007 and started its operations from November 16, 2007. The Company publishes 'Mail Today', an English daily newspaper and further displays its publication on 'mailtoday.in'. The Company derives revenue from the sale of the above mentioned publications and advertisements published therein and events business. The corporate identity number of the Company is U22210DL2007PTC163174.

Note 1: Significant accounting policies

(a) Basis of preparation

(i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements up to year ended March 31, 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These special purpose extracted financial statements covering period April 1, 2016 to January 1, 2017 have been prepared for the purpose of merger of Newspaper Publishing Business of Mail Today Newspapers Private Limited with T.V. Today Network Limited, pursuant to Composite Scheme of Arrangement and Amalgamation approved by Board of Directors of the Company on December 15, 2017, to be filed with National Company Law Tribunal. Accordingly, the cash flow statement, previous period figures and other disclosures mandated for preparation of financial statements under IND AS have not been disclosed while preparing these special purpose interim extracted financial statements of the Newspaper Publishing Business of the Company.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis.

(iii) Deferred Tax Assets

Subsequent to the date of the financial statements, the Board of Directors of the Company, in their meeting held on December 15, 2017, have approved a Scheme of Arrangement to transfer/merge its Publishing Business into its holding company (on the date of approval from Board of Directors), T.V. Today Network Limited (TVTN) ('the acquirer company'). The management of the Company believes that once the scheme is approved by the National Company Law Tribunal, the accumulated losses of the Company shall be available for set off with taxable income of the acquirer company.

Accordingly, the management of the Company believes that reasonable certainty exists to recognize deferred tax assets on the accumulated business losses, unabsorbed depreciation and other timing differences outstanding as at January 01, 2017.

As a result, deferred tax assets aggregating to INR 1,037,366,903 (including INR 1,015,472,336 upto period ended March 31, 2016 not recognised in earlier periods) has been recognised in these financial statements, prepared for the special purpose as stated in clause 1(a)(i) above.

(b) Foreign Currency Translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(ii) Transaction and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

(c) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Rendering of services - Advertisement Income

Timing of recognition: Advertisement income is recognized as and when advertisement is published /displayed and is disclosed net of discount.

Measurement of revenue: Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

Sale of publication and waste paper

Timing of recognition: Sale of publications and waste paper revenue is recognized when the significant risks and rewards of ownership have passed on to the buyer and is disclosed net of sales return and discounts.

Measurement of revenue: Revenue from sale of publication is based on sale price of the newspaper or contractual price. No element of financing is deemed present as the sales are made for credit period, which is consistent with market practice.

(d) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in India where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(e) Leases

As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(f) Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(g) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(h) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(i) Inventories- Raw Material

Raw-material are stated at lower of cost and net realisable value. Cost of raw-material comprises cost of purchases. Cost of raw-material also include all other costs incurred in bringing the inventories to their present location and condition. Cost of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost is determine on weighted average basis.

(j) Financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit and loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(k) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit and loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 24(A) details how the Company determines whether there has been a significant increase in credit risk.

Mail Today Newspapers Private Limited

Notes forming part of the extracted financial statements of newspaper publishing business for the nine months period ended January 31, 2017

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 *Financial Instruments*, which requires expected life time losses to be recognised from initial recognition of the receivables.

(iv) *Derecognition of financial assets*

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) *Income recognition*

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

(k) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(l) *Property, plant and equipment*

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant

Depreciation methods, estimated useful lives and residual value

- (i) Depreciation on tangible assets is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets as prescribed under Schedule II to the Companies Act, 2013.
- (ii) Assets costing below Rs. 5,000 are fully depreciated in the year of acquisition.
- (iii) Leasehold Improvements are amortized over the useful life or unexpired period of lease (whichever is lower) on a straight line basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than estimated recoverable amount.

Gain and loss on disposables are determined by comparing proceeds with carrying amount. These are included in the profit or loss with other gains/(losses).

Handwritten signatures and initials.

Mail Today Newspapers Private Limited

Notes forming part of the extracted financial statements of newspaper publishing business for the nine months period ended January 01, 2017

(m) Investment properties

Property that is held for long term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment properties are measured initially at cost, including related transaction costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefit associated with expenditure will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance cost are expensed when incurred. When part of investment property is replaced, the carrying amount of replaced part is derecognised.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The Company depreciates investment property on a pro-rata basis on the straight-line method over the estimated useful lives of the assets as prescribed under Schedule II to the Companies Act, 2013.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its investment properties recognised as at April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the investment properties.

(n) Intangible assets

Acquired intangible assets are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

(i) Amortisation methods and periods

Intangible assets mainly include software licenses stated at cost, less accumulated amortization. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use and are amortized using the straight-line method over a period of three years.

(ii) Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognised as at April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

(o) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 60-90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(q) Employee benefits

(i) Short-term obligation

Liabilities for salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits.

AS

Mail Today Newspapers Private Limited

Notes forming part of the extracted financial statements of newspaper publishing business for the nine months period ended January 31, 2017

(ii) *Other long-term employee benefits obligations*

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) *Post employment obligations*

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity
- (b) defined contribution plans such as provident fund.

Gratuity obligations

The liability recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually or statutorily

Defined contribution plans

Company's contributions to Provident Fund, Employees' State Insurance Scheme and Employee Pension Scheme, which are defined contribution plans, are expensed to the statement of profit and loss on accrual basis. The Company has no further obligations under these plans beyond its monthly contributions to the respective government funds.

(iv) *Contributed equity*

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(v) *Earnings per share*

(i) *Basic earnings per share*

Basic earnings per share is calculated by dividing:

- (a) the profit attributable to owners of the Company,
- (b) by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 28).

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- (a) the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- (b) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(c) Recent accounting pronouncements

(i) New Standards

There were no new standards published which would be applicable on the Company.

(ii) New Amendments

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are applicable to the Company from April 1, 2017.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

The Company is evaluating the requirements of the recent amendment, as a result the corresponding impact on the financial statements is being evaluated.

Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

In the opinion of the management, there is no impact of such change on the financial statements.

Note 2: Critical estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical estimates and judgements

The areas involving critical estimates and judgements are:

- i) Estimation of current tax expense and payable - Note 23
- ii) Estimate useful life of intangible assets - Note 5
- iii) Estimation of employee related defined benefit obligations - Note 14
- iv) Recognition of deferred tax assets for carried forward tax losses - Note 23

Estimates and judgements are continually evaluated. They are based on historical experience and other factors including expectations of future events that may have financial impact on the Company and that are believed to be reasonable under the circumstances.

(All amounts in Indian rupee unless otherwise stated)

(i) *Functional and presentation currency*

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(ii) *Transaction and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

(c) **Revenue Recognition**

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Rendering of services - Advertisement Income

Timing of recognition: Advertisement income is recognized as and when advertisement is published /displayed and is disclosed net of discount.

Measurement of revenue: Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(d) **Income Tax**

India Today Newspapers Private Limited

Notes forming part of the extracted financial statements of events business for the nine months period ended January 01, 2017

(All amounts in Indian rupee, unless otherwise stated)

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(e) Leases

As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost.

(f) Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(g) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current

(h) Trade receivables

Mail Today Newspapers Private Limited

Notes forming part of the extracted financial statements of events business for the nine months period ended January 01, 2017

(All amounts in Indian rupee, unless otherwise stated)

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(i) **Financial assets**

(i) *Classification*

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit and loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(ii) *Measurement*

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Mail Today Newspapers Private Limited

Notes forming part of the extracted financial statements of events business for the nine months period ended January 01, 2017

(All amounts in Indian rupee, unless otherwise stated)

Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(iii) *Impairment of financial assets*

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 24(A) details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 *Financial Instruments*, which requires expected life time losses to be recognised from initial recognition of the receivables.

(iv) *Derecognition of financial assets*

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) *Income recognition*

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

(j) *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

(k) Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

- (i) Depreciation on tangible assets is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets as prescribed under Schedule II to the Companies Act, 2013.
- (ii) Assets costing below Rs. 5,000 are fully depreciated in the year of acquisition.
- (iii) Leasehold Improvements are amortized over the useful life or unexpired period of lease (whichever is lower) on a straight line basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than estimated recoverable amount.

Gain and loss on disposables are determined by comparing proceeds with carrying amount. These are included in the profit or loss with other gains/(losses).

(l) Intangible assets

Acquired intangible assets are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

(i) Amortisation methods and periods

Intangible assets mainly include software licenses stated at cost, less accumulated amortization. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use and are amortized using the straight-line method over a period of three years.

(ii) Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognised as at April 1, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

(m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 60-90 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the

(n) Employee benefits

(i) Short-term obligation

Liabilities for salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefits obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity
- (b) defined contribution plans such as provident fund.

Gratuity obligations

The liability recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually or statutorily obliged.

Defined contribution plans

Company's contributions to Provident Fund, Employees' State Insurance Scheme and Employee Pension Scheme, which are defined contribution plans, are expensed to the statement of profit and loss on accrual basis. The Company has no further obligations under these plans beyond its monthly contributions to the respective

(o) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(p) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- (a) the profit attributable to owners of the Company,
- (b) by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares (note 28).

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into

- (a) the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- (b) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(q) Recent accounting pronouncements

(i) New Standards

There were no new standards published which would be applicable on the Company.

(ii) New Amendments

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are applicable to the Company from April 1, 2017.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

The Company is evaluating the requirements of the recent amendment, as a result the corresponding impact on the financial statements is being evaluated.

Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

In the opinion of the management, there is no impact of such change on the financial statements.
